

$t_1$  Gazprom **transports** natural gas to France across Ukraine

The diagram illustrates the flow of natural gas from Gazprom to France across Ukraine. It features a horizontal timeline with several curved arrows representing transport routes. A thick black arrow points from the word 'transports' to the left. Three thick grey arrows originate from the word 'transports' and point to the right, representing the main gas transport routes. A thin grey arrow points from the word 'Ukraine' to the left, and another thin grey arrow points from the word 'France' to the right, indicating the direction of flow across the country.
